File No. BMJPL-20131114BYB

Dear Applicant:

This letter refers to the above-captioned application for a change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 with respect to first-adjacent license, BLH-20000714ABE, for station WPOC(FM), Baltimore, MD. The required separation is 97 kilometers, whereas the separation proposed is 92.7 kilometers.

Accordingly, in light of the above, application BMJPL-20131114BYB is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
